RE:    Small Renewable Power Rate

Dear Ms. Van Gerpen:

For a qualifying customer-owned small renewable power facility, Grand Electric would generally pay the avoided cost, subject to certain adjustments, as calculated by Basin electric Power Cooperative for SPP systems. Those rates as are follows:

<u>Year</u>	<u>Rate</u>
2010	\$.0168/kWh with a \$24/kw-season for summer season (May-October)
2011	\$.0173/kWh
2012	\$.0202/kWh
2013	\$.0216/kWh
2014	\$.0216/kWh
2015	\$.0224/kWh
2016	\$.023/kWh
2017	\$.023/kWh in SPP
2018	\$.0225/kWh OR the Real Time Hourly Price in SPP
2019	\$.0226/kWh OR the Real Time Hourly Price in SPP

This is the minimum amount that would have been paid to small renewable sources for the historic period requested. Interested individuals should contact their local electric cooperative for more information. All rates are subject to change.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Colle Nash, Gen. Mgr.
