About the PUC

South Dakotans elect their three Public Utilities Commissioners to staggered, six-year terms. A dedicated staff of analysts, attorneys, consumer representatives and other professionals work with the commissioners to carry out the duties of the PUC. The PUC's website, www.puc.sd.gov, contains a wealth of information including audio web casts and recordings of meetings and hearings.

UTILITY REGULATION

The PUC ensures utility companies in South Dakota provide safe, reliable service at fair and reasonable rates. The commission regulates investor-owned electric, natural gas and telephone utilities. It plays a more limited regulatory role with respect to wireless telecommunications companies and cooperative, independent and municipal utilities.

OTHER RESPONSIBILITIES

The PUC helps resolve disputes between customers and their utilities, operates the South Dakota Do Not Call Registry and administers the state's One Call notification center (call before you dig). The commission also operates the natural gas pipeline safety program and licenses and inspects state public grain warehouses and grain buyers.

ADVOCACY AND EDUCATION

The commission advocates for smart energy and telecommunications policy at the state and federal levels and works hard to educate consumers about ways to save energy and money (www.SDEnergySmart.com). The PUC acts as a resource to landowners, communities and developers for both renewable energy development (www.SDWind.com) and for the build-out of our state's wireless telecommunications networks.

INFORMATION SUPERHIGHWAY

The commission's main website, www.puc.sd.gov, has a wealth of information ranging from utility company phone numbers to summaries of regulatory filings. The commission offers live audio web casts of dozens of proceedings, including commission meetings and hearings. All audio files are archived for later reference and convenience. The website also contains a comprehensive docket system that encompasses thousands of pages frequently used by PUC commissioners, staff and the public. The website is a valuable resource to utilities, attorneys, consultants and citizens interested in the work of the PUC.

PUC on the World Wide Web

www.SDDoNotCall.com includes an overview of how consumers can add their personal phone numbers to the national registry to decrease the amount of telemarketing calls they receive. The site also describes how telemarketing companies doing business in South Dakota need to comply with applicable statutes and rules.

www.SDEnergySmart.com is a guide for South Dakota consumers to become more energy efficient. The site includes links to the state's utility providers that are partners in the South Dakota Energy Smart initiative.

www.SDOneCall.com includes an electronic ticketing system for excavators and others who use the Call Before You Dig notification service and an index of complaints, among other important information. The PUC maintains the site for the One Call Board.

www.SDWind.com has information about wind energy.

Commissioners

South Dakotans elect their three Public Utilities Commissioners to staggered, six year terms.

Gary Hanson is the chairman of the South Dakota Public Utilities Commission. He was elected to the commission in 2003 and re-elected in November 2008. He served as the commission's chairman in 2005, 2008 and 2011. Gary represents South Dakota on the National Association of Regulatory Utility Commissioners' Committee on Electricity. He served on the executive committee and as treasurer of the Organization of MISO States, is a member of the Mid-America Regulatory Conference, and represented the nation's NARUC commissioners on the steering committee of the National Wind Coordinating Collaborative and is a member of the Advisory Council for New Mexico State University's Center for Public Utilities.

Gary has served as chairman of the South Dakota Underground Pipeline Task Force, as member of Gov. Mike Rounds' Task Force on Wind Development, South Dakota's Energy Task Force, and Gov. George S. Mickelson's Cumulative Environmental Evaluation of Black Hills Mining Task Force. His service to the state also includes three terms in the South Dakota Senate where he was chairman of the committees of Bonding and of Government Audit and Operations, and vice chairman of the Taxation Committee.

A native of Sioux Falls, Gary was twice elected as mayor of that city and oversaw multiple departmental operations of more than 1,200 employees. Prior to serving as mayor, Gary was Sioux Falls' utilities commissioner for six years and was responsible for the development and day-to-day activities for three municipal utilities. He owned several businesses before elected office and is a licensed real estate auctioneer, appraiser and broker.

As a regional and industry leader, Gary is co-founder, past president, chairman, and often referred to as the father of the Lewis and Clark Regional Water System. He was chairman of the South Dakota Public Assurance Alliance, and president of the Sioux Falls Board of Realtors. He has served on the boards of directors of Lutheran Social Services Credit Counseling Advisory Board, DAV Arthur H. Muchow Independent Living Center, Sioux Falls Jaycees, Northern State University Foundation, Minnehaha Metro Communications Systems, South Dakota Water Congress, and Sister Cities Association. Gary was instrumental in the founding of the Multicultural Center in Sioux Falls, the Great Plains Waicipi, Community Drug Concerns Task Force, as well as endowments for the Sioux Falls Pavilion and the Great Plains Zoo.

Awards and honors received by Gary include being named Distinguished Alumnus of Northern State University, Sioux Falls' City Father of the Year, YMCA Tri-State Hall of Fame, International Lions Club Melvin Jones Fellow, Outstanding Young Citizen of South Dakota, Habitat for Humanity's Hat's Off Award, Spirit of Downtown Sioux Falls Award, White Cane Safety Award, Multiple Sclerosis Society Chapter's Mayor of the Year, Children's Care Hospital Wings of Love Award, DAV's Outstanding Legislator Award, and Life Member of Lions Club Sight and Service Foundation.

He has regularly shared his passion for athletics as a volunteer coach for a variety of youth sports. Gary actively pursues a number of interests including astronomy, carpentry, car engines, birding, genealogy, hunting, fishing, skydiving, SCUBA diving, spelunking, camping, history and sports.

Gary and his wife, Sandy, make their home in Sioux Falls and Pierre. The couple has three children and seven grandchildren.

**Commissioner
Gary Hanson**

*Elected 2002 and 2008
Term Ends 2015*

Chris Nelson is currently the vice chairman of the South Dakota Public Utilities Commission. Chris was appointed Jan. 8, 2011, by Gov. Dennis Daugaard to fill a vacancy on the commission and was elected by South Dakota voters in November 2012 to continue his service for the remaining four years of the term. Chris served as the PUC's chairman in 2012 and vice chairman in 2011.

He is a member of the National Association of Regulatory Utility Commissioners, serving as a member of the association's Committee on Telecommunications. Additionally, Chris has been appointed to the NARUC Task Force on Federalism and Telecommunications.

Previously, Chris served as Secretary of State having been elected in the 2002 general election. Chris was unopposed for reelection in 2006 which was the first time the office was unopposed in the history of South Dakota.

Prior to becoming Secretary of State, Chris held the position of state election supervisor in the Secretary of State's office for 13 years and was uniform commercial code supervisor in the same office for two years.

As Secretary of State, Chris received the 2010 Excellent Service to South Dakota County Officials award from the South Dakota County Officials Association, the 2004 Hazeltine/Taylor award from South Dakota Kids Voting, and the 2003 Excellence in South Dakota Municipal Government award from the South Dakota Municipal League. In 2005, Chris was appointed as a National Governors Association representative on the United States Election Assistance Commission Board of Advisors.

Under Chris's leadership the Secretary of State's office was awarded the Election Center's 2009 Professional Practices Program State Award. This annual award is given as recognition for the most outstanding election administration professional practice in the nation. The award recognizes the 2008 development and implementation of a new central election reporting system for the state.

Following graduation from White Lake High School, Chris earned a bachelor's degree in animal science, with highest honors, from South Dakota State University in 1987.

Chris is actively involved in his church and counts agriculture and hunting as two areas of personal interest. He maintains a part-time cattle operation. Chris, his wife Penny and daughter Rebekah reside in Pierre.

**Commissioner
Chris Nelson**

*Appointed 2011
Elected 2012
Term Ends 2017*

Kristie Fiegen was appointed to the South Dakota Public Utilities Commission by Gov. Dennis Daugaard on Aug. 9, 2011, to fill a vacancy on the commission. Kristie was then elected to the commission in November 2012, to serve a six-year term. She served as vice chairman of the PUC in 2012. She is a member of the National Association of Regulatory Utility Commissioners' Committee on Gas.

Prior to joining the PUC, Kristie was the president of Junior Achievement of South Dakota for 17 years and was recognized as the top Junior Achievement USA President in 2008. Under Kristie's leadership, participation in Junior Achievement increased from 2,400 to more than 44,000 students annually and her team was named among the top eight franchises in the country nine times. Kristie's career also includes serving as the South Dakota area manager for the National Multiple Sclerosis Society for nine years and as a sales representative for Monsanto Company.

Kristie's public service career includes four terms in the South Dakota House of Representatives, from 1993 to 2001. While a legislator, she served as chair of the House Health and Human Service Committee.

She has been active in Rotary, the United Way and Toastmasters, and is an active member of Central Baptist Church.

Kristie earned a bachelor's degree in commercial economics and agricultural business from South Dakota State University and a master's degree in business administration from the University of South Dakota. She grew up on her family's farm near Chancellor, S.D., and is a graduate of Parker High School. Kristie and her husband, Tim, live in Sioux Falls with their sons, Alexander and Jackson.

**Commissioner
Kristie Fiegen**

Appointed 2011

Elected 2012

Term Ends 2019

PUC Commissioners Fiegen, Hanson and Nelson

Staff

The PUC's 30 staff members perform a variety of duties on behalf of the citizens of South Dakota and in support of the commission.

As **executive director**, **Patricia Van Gerpen** is responsible for the overall management of the PUC staff and day-to-day operation of the agency. She makes docket and project assignments and is the liaison between the commissioners and staff on all issues. Patty also works directly on a number of legislative, strategic planning and policy initiatives.

Leah Mohr, **deputy executive director**, schedules hearings and various meetings for the commission. She is also the copy writer for the PUC's websites, outreach materials and news releases, handles media inquiries and coordinates logistics for informational and educational meetings.

Cindy Kemnitz, **finance manager**, is responsible for the commission's fiscal activities including administrative functions related to the gross receipts tax, the regulatory assessment fee fund and the telephone solicitor registry. She prepares and monitors budgets and handles accounting, payroll and purchasing duties. She also prepares the commission's meeting agendas.

Ben Schaap serves as the **communications assistant**. He assists with the development of educational materials, meeting and event coordination, and news releases.

Advising the commissioners are **John Smith**, **general counsel**; **Greg Rislov**, **commission advisor**; and **Rolayne Ailts Wiest**, **commission attorney**. The attorneys also serve as hearing examiners and represent the commission in state and federal courts and before federal regulatory agencies. Rolayne's additional specialties are advising about federal regulation and state legislative matters. Greg provides policy and technical consultation and research support regarding major regulatory issues.

Administrative staff members perform a variety of support services including handling incoming phone calls and mail and greeting guests. Each staff member has specific duties that keep the PUC running smoothly. **Tina Douglas** is the web specialist with primary responsibility for maintaining the PUC's electronic dockets as well as each of the websites the commission operates. **Sherry Dickerson** schedules and coordinates meeting logistics, travel and training. **Joy Irving** assists with the preparation of legal documents, distributes meeting agendas, minutes and weekly filings and coordinates mailings.

Staff analysts are responsible for investigating, analyzing, evaluating and presenting testimony regarding issues and policies related to the electric, natural gas and telecommunications industries as regulated by the commission. Their educational and professional background includes expertise in accounting, economics, research and engineering. **David Jacobson**, **Brittany Mehlhaff** and **Patrick Steffensen** use these skills to focus on quality of service, financial and rate matters as they work to understand and evaluate complex rate structures, earning requirements, and technical issues of various utility organizations. **Darren Kearney** and **Brian Rounds** are analysts who primarily concentrate on emerging technologies such as renewable energy, wireless telecommunications and energy efficiency efforts. They also engage in outreach activities to consumers, industry representatives and students and provide docket analysis as assigned.

Karen Cremer and **Kristen Edwards** are **staff attorneys** with educational and practical experience in administrative law, trial procedure and business management principles. They review filings by utilities and represent the staff in proceedings before the commission. They work closely with staff analysts as they develop recommendations for policy, rate, siting and enforcement matters. They coordinate the presentation of the staff's case and cross-examine other parties who submit testimony. Kristen also serves as the staff attorney assigned to all South Dakota One Call matters.

Three staff positions were added to the PUC on a temporary basis in 2010 as a result of funding provided by the **American Recovery and Reinvestment Act of 2009 (ARRA)**. Provisions of the federal funding specify the staff members commit resources to electricity-related activities only and the positions be filled for no longer than a three-year period. These positions are held by analysts **David Henry, Jason Simmons** and **Matthew Tysdal**.

The **Pipeline Safety Program** is staffed by engineers **Nathan Solem** and **Mary Zanter** with Nathan handling additional duties as program manager. The PUC administers the program on behalf of the U.S. Department of Transportation. Nathan and Mary inspect and investigate intrastate natural gas pipelines, master meters and propane systems to ensure the public is provided safe and dependable gas service. The two also analyze utility dockets as assigned.

Jim Mehlhaff is the director of the **Grain Warehouse Division** that works to protect property rights of customers and safeguard payments to grain producers. **Judy Page** assists with the issuance of warehouse and grain dealer licenses. **Justin Blais** and **Paul Kenefick-Aschoff** conduct grain warehouse and grain dealer inspections and investigations. The warehouse staff also performs check-off audits for various grain commissions and councils.

The **Consumer Affairs Division** works with customers to answer questions and resolve complaints about the rates and services of regulated utilities. Manager **Deb Gregg** and representatives **Vicky Burns** and **Jason Schuchard** act as liaisons between consumers and utility companies in resolving these issues. This division also coordinates the PUC's presence at home shows and fairs and makes group presentations as requested.

Financial Report

Public Utilities Commission Annual Report 2012

2012 Year in Review

Top Priorities

2012 Year in Review

TELECOMMUNICATIONS

Commissioner Chris Nelson was appointed to the National Association of Regulatory Commissioners' Task Force on Federalism and Telecommunications that will review and set new policies on telecommunication regulation for NARUC.

Deemed 39 telecommunications companies as eligible to collectively receive millions of dollars in high cost support from the federal Universal Service Fund for maintaining, upgrading and building out their networks in South Dakota in 2013. The Universal Service Administration Co. estimates companies invested more than \$69.3 million in USF monies in South Dakota in 2011.

Continued monitoring, at local and national levels, issues related to completion of calls to customers of rural telecommunications companies. Researched complaints from consumers and companies.

Approved 44 requests from telecommunications companies to reduce rates to comply with the FCC's intercarrier compensation reform. An additional 44 filings from companies were processed and approved for amendments to interconnection agreements to conform to the FCC's changes.

Assisted South Dakota's rural telecommunications companies with communicating to the FCC the correct territory areas for the companies. The FCC had been underestimating the size of the territories, which could have resulted in reduced federal funding for broadband upgrades.

GRAIN WAREHOUSE

Issued 315 licenses and performed 380 on-site inspections.

Investigated producer complaints of Anderson Seed's failure to pay. Following inspector analysis, commission revoked the company's grain buyer license and followed statutory procedures to become the receiver of Anderson Seed's \$100,000 bond. Coordinated the bond proceeds claim process among producers and other grain suppliers. Bond proceeds will be paid to eligible claimants in 2013.

Drafted a suite of proposed updates to grain buyer and warehouse statutes with input from agribusiness and producer organizations. Announced the five-point plan at a news conference held at the Governor's Ag Summit. Refined legislation for introduction at the 2013 legislative session.

ENERGY EFFICIENCY

Approved updates to energy efficiency plans by investor-owned utilities that offer cost and energy savings to customers.

MidAmerican Energy Co. – The approved plan is a continuation and expansion of the company's previously-approved plan, which provides rebates, audits and an appliance recycling program to qualified customers that install energy-efficient equipment and devices and/or use programs to help them reduce their energy use. Collective energy savings during the five-year plan are estimated to be more than 25 million kilowatt hours of electricity and 8 million therms of natural gas.

Otter Tail Power Co. –The update allows for greater customer participation in programs for lighting, motors, heat pumps and custom efficiency incentives.

Created a new section on the South Dakota Energy Smart website that summarizes energy efficiency rebates available to South Dakotans. The information is organized by city and provider and includes links to specific information and applications.

HYDROCARBON PIPELINE

Granted the release of construction bonds for the Keystone Pipeline, which is operational in eastern South Dakota.

ELECTRIC

Processed 25 electric service territory boundary agreements to verify electric territory mapping data for conversion to electronic format and use in a Geographic Information System database.

Continued working with counterparts from other states on the Eastern Interconnect States' Planning Council/ State Provincial Steering Committee to strategize regional transmission planning and cost allocation efforts.

As part of the Western Interconnection Regional Advisory Body, continued to provide advice to the Western Electricity Coordinating Council, North American Electric Reliability Corporation and Federal Energy Regulatory Commission about electric reliability issues, specifically the group considered the ongoing reorganization of WECC.

Approved a 5.12 percent electric rate increase by Xcel Energy. The company had sought a 9.28 percent increase. The commission's decision trimmed more than \$6.5 million in additional annual revenue from Xcel Energy's initial request.

Approved the transfer of a construction permit granted in 2007 to the seven Big Stone II regional utilities, including Otter Tail Power Co. to Otter Tail exclusively. The permit transfer is Otter Tail's first step in the permitting of the Multi-Value Project transmission line expected to run from Big Stone to Brookings.

Approved a transmission cost recovery tariff for Xcel Energy for the company's share of local and regional transmission investments. Staff and company representatives developed a cost allocation method that considers the jurisdiction that has created the need for regional transmission investment and the amount of investment that is appropriate to include in retail rates.

RENEWABLE ENERGY

Compiled the annual South Dakota Renewable, Recycled and Conserved Energy Objective report and submitted it to the state legislature. Companies reporting for 2011 collectively owned 494 megawatts of renewable generation capacity in South Dakota; retired 20,796 megawatt hours of renewable energy credits; and reported 11,742 MWh in conserved energy and 737 MW of conserved capacity, all in South Dakota.

Participated in the review, negotiation and approval of a new rate structure for the Midwest Renewable Energy Tracking System that reduces the cost of tracking renewable energy credits. PUC staff member Brian Rounds serves as secretary for the M-RETS governing board.

Commissioner Gary Hanson delivered a presentation to fellow state regulators at the annual American Wind Energy Association convention. Hanson's remarks focused on renewable energy, electric transmission and regulatory issues in the country and the specific impact in South Dakota.

PIPELINE SITING, SAFETY AND INSPECTION

Completed 170 days of pipeline safety inspections, exceeding the federal requirement of 133 days.

Led six training webinars about inspections, federal legislation, penalties, emergency response, control room management and pipeline siting collectively attended by 150 pipeline operators.

Pipeline safety staff participated in more than 140 hours of training.

Assessed a total of \$3,550 in penalties against three different pipeline operators for pipeline safety violations.

Approved a revised pipeline safety violation penalty worksheet that was developed by PUC staff with industry input. The worksheet meets state statutory requirements and federal expectations.

Hosted delegates from the central region of the National Association of Pipeline Safety Representatives for their annual meeting held in Rapid City.

Promoted the Call Before You Dig program with statewide news releases for National Safe Digging Month in April and National 8/11 Day in August. Encouraged visitors to the PUC's booth at the Brown County, Sioux Empire and State Fair to take the One Call pledge to call 811 before any excavation activity.

Conducted an investigation into an incident affecting Montana-Dakota Utilities Co.'s system in Spearfish. A flatbed trailer full of logs detached from its semi-tractor on I-90 and hit the gas meter set on the Spearfish Wal-Mart. Damage to MDU's system was in excess of \$50,000. No pipeline safety violations were found.

Completed all first round inspections of new public awareness effectiveness regulations and new Distribution Integrity Management inspections a year ahead of federal deadlines.

Commissioner Kristie Fiegen delivered a presentation about the PUC's role in pipeline siting to South Dakota county commissioners.

LEADERSHIP

Commissioner Chris Nelson was voted to serve as PUC chairman and Commissioner Kristie Fiegen was voted vice chairman.

Commissioner Chris Nelson was elected to PUC to complete the term to which he had been appointed in 2011.

Commissioner Kristie Fiegen was elected to PUC for a six-year term beginning in 2013, following an appointment to the commission in 2011.

PUBLIC OUTREACH AND CONSUMER ASSISTANCE

Hosted a pre-session PUC briefing for legislators. The forum featured an update about proposed grain buyer legislation, wind energy development, the impact of EPA regulations, transmission challenges, Keystone pipelines and the Federal Communications Commission's 2011 order that overhauls telecommunications funding support. The event attracted nearly 40 legislators and a number of utility industry representatives.

Assisted consumers on nearly 2,000 occasions with issues and complaints related to electric, natural gas, telecommunications (including wireless), energy efficiency and other utility-related topics.

Conducted personal consumer outreach at home shows in Sioux Falls and Rapid City and fairs in Aberdeen, Sioux Falls and Huron. Commissioners and staff met with more than 3,200 consumers to answer questions about utility issues and promote the Call Before You Dig program, energy efficiency, Lifeline telephone assistance program and the Do Not Call registry.

Helped to increase the amount of South Dakota telephone numbers on Do Not Call registry to 604,031.

Commissioner Chris Nelson was a guest lecturer for Brookings eighth grade science classes and students at Sioux Falls' technology high school. Nelson and the students discussed wind, hydro and solar applications in South Dakota.

Assisted a number of consumers whose wireless phone account had been fraudulently accessed. Issued a statewide news release encouraging consumers to check or add security measures to protect their wireless phone accounts.

Warned South Dakotans, via a statewide news release and direct consumer contact, about a deceitful billing scheme by an out-of-state company attempting to elicit payment for telecommunications services not delivered.

LEGISLATION

Introduced House Bill 1036, grain warehouse legislation, which added language to define an “independent provider.” The bill also clarified other points of existing statutes.

Shepherded the passage of Senate Bill 35 to update pipeline safety citations to federal regulations and laws. The legislation also increased the maximum civil penalties that can be levied against a pipeline operator that violates a safety rule or law.

WIRELESS

Monitored the actions and results as new wireless telecommunications sites and enhancements were launched by companies at several locations improving wireless coverage in or near Aberdeen, Arlington, Armour, Aurora, Bath, Belvidere, Brookings, Buffalo Gap, Canton, Doland Draper, Edgemont, Fort Pierre, Fort Thompson, Freeman, Gann Valley, Groton, Kennebec, Keystone Madison, Mitchell, Mount Vernon, Murdo, Oelrichs, Parker, Pierre, Plankinton, Pringle, Rapid City, Sioux Falls, Spearfish Sturgis, Viborg, Vivian, Volga, Wessington Springs, White Lake and Yankton.

Top Priorities

The South Dakota Public Utilities Commission focuses on the state’s ratepayers and utility producers, managing its responsibility with the long-term public interest in mind. Accordingly, the priorities listed on the following pages are those that the commission examines to evaluate the fulfillment of its responsibility.

ELECTRIC AND NATURAL GAS

The commission looks after the welfare of South Dakotans as related to electric and natural gas issues. Actions taken by the commission strive to ensure reliable service and reasonable rates from investor-owned utilities as well as fair service territory boundaries for all utilities. The commission follows guidelines prescribed by South Dakota law when siting energy conversion and transmission facilities and serves as an objective resource on renewable energy issues. The components of this priority affect South Dakotans in terms of reliability and cost of their electric and natural gas services.

The PUC uses a number of ways to measure the agency’s effectiveness at handling these issues.

Rates

Reviewing electric and natural gas rates from around the state, region and nation offers perspective to evaluate the financial impact South Dakota ratepayers experience compared to residents of other states.

Average Residential Natural Gas Rate

	\$8.59	South Dakota
	\$9.81	West North Central Region (Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota)
	\$11.02	United States

Measurement, per thousand cubic feet, 2011

Average Residential Electric Rate

	10.04 cents	South Dakota
	10.68 cents	West North Central Region (Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota)
	11.92 cents	United States

Measurement, per kWh, October 2012

Completed Electric and Natural Gas Dockets

The number of electric and natural gas dockets completed each year reveals the agency's ability to manage its duties and workload. The measurement also alerts agency officials if the process by which dockets are assigned, analyzed and acted upon by staff and commissioners is appropriate. The commission seeks to completely process 85 percent of its annual electric and natural gas dockets within 12 months of a docket being filed.

2012 Electric and Natural Gas Dockets

- 68** Completed dockets
 - 33** Completed within approximately 1 month
 - 34** Completed in 2 to 4 months
 - NA** Completed in 5 to 6 months
 - 1** Completed in 7 to 12 months
- 10** Uncompleted dockets
- 87%** Percentage completed

Measurement, 2012

Overtured Electric and Natural Gas Dockets

Parties that file requests or applications with the PUC and intervenors to those dockets have the right to challenge the commission's decision in circuit court. The number of dockets overturned by judicial order is an assessment of the manner by which the commission perceives and uses its regulatory authority.

Overtured dockets: None

Measurement, 2012

Electric Reliability

The electric utility industry uses indices to track and benchmark reliability performance. Companies use this data to evaluate and improve upon their response to outages, handling of customer complaints and system integrity. Though electric utilities in South Dakota are not required to report these scores to the PUC, the companies discuss the information with the commission and a comparison to national scores is ascertained.

Sixteen of the 18 scores provided to the PUC by South Dakota's six investor-owned utilities placed below the national average. (The lower the score, the better the performance.) Analyzing the scores with relation to customer base and other factors reveals that the utilities have a high degree of electric reliability performance.

Measurement, South Dakota 2012 scores compared to National 2011 average

Indices

System Average Interruption Duration Index (SAIDI): The average amount of time a customer's service is interrupted during the reporting period

System Average Interruption Frequency Index (SAIFI): The average number of interruptions that a customer would experience

Customer Average Interruption Duration Index (CAIDI): The average outage duration that any given customer would experience. CAIDI can also be viewed as the average restoration time.

GRAIN WAREHOUSE

Monitoring the South Dakota grain industry is a significant responsibility of the Public Utilities Commission. The PUC Warehouse Division licenses and inspects:

- state-licensed grain storage warehouses,
- federally-licensed grain storage warehouses holding state grain-buyer licenses,
- grain buyers licensed as processors and non-storage facilities.

Grain brokers and truck-based grain buyers are also licensed but not inspected because they do not maintain grain handling facilities in South Dakota.

The warehouse staff works to reduce producer risk by reviewing the grain buyer and grain warehouse financial statements each year and by performing regular on-site inspections.

The PUC uses three main categories to measure its effectiveness in the grain industry.

Inspections

The PUC conducts inspections to ensure compliance with statutes and rules related to the licensing and bonding requirements for grain warehouses and grain buyers. The number of inspections conducted describes the penetration of the agency's review process. The commission aims to inspect each licensed facility annually.

Grain warehouse and grain buyer inspections: 380 inspections at 259 licensed facilities

Measurement, 2012

Failures

When a licensed grain warehouse fails to perform its duties or carry out its obligations to its producers, the PUC follows prescribed laws and administrative rules to investigate, audit or take other necessary action to limit damage to the public. The number of failures, excluding circumstances beyond the commission's authority, can be an indicator of the commission's level of diligence in overseeing the industry.

Failures: One

Measurement, 2012

Licenses

The PUC issues licenses for grain buyers/grain warehouses doing business in the state. Each licensed entity is required to apply for renewal annually. As part of the licensing and renewal process, the commission analyzes grain buyers' financial ability to pay grain producers and suppliers. The number of licenses handled by the PUC depicts the wide scope of the commission's monitoring of the industry.

Class A Grain Buyer Licenses (entities that use voluntary credit sale contracts or exceed \$10,000,000 in annual purchases): 128 entities with 259 locations

Class B Grain Buyer Licenses (entities that do not use voluntary credit sale contracts and do not exceed \$10,000,000 in annual purchases): 54 entities with 56 locations

State Warehouse Licenses (entities that are licensed by the state to store grain for hire): 62 entities with 97 locations

Federal Warehouse Licenses (entities that are licensed by the USDA to store grain for hire): 29 entities with 121 locations

Processors (entities that purchase grain for the purpose of processing it into other products): 18 entities with 22 locations

Non-storage (entities that operate a grain handling facility but do not hold a state or federal warehouse license): 20 entities with 25 locations

Truck (entities that are primarily trucking companies with no grain handling facility but purchase grain for the purpose of resale): 16 entities with 16 locations

Brokers (entities that purchase grain but do not take physical possession of the grain): 31 entities with 34 locations

Measurement, 2012

PIPELINE SAFETY

The PUC has responsibility to regulate hazardous gas intrastate pipelines which includes ensuring the public is provided safe and dependable gas service. As part of its duties, commission staff inspects and investigates natural gas pipeline operators, master meter operators and propane systems for compliance with statutes and administrative rules.

The commission uses the following measurement tools to establish that it is appropriately handling its role with regard to pipeline safety.

Inspections

PUC pipeline safety inspectors regularly inspect hazardous gas pipeline operators to determine compliance with state and federal regulations. Inspections occur in the areas of records, field, construction, drug and alcohol, public awareness, incident investigation, operator qualification and integrity management. The number of inspection hours logged by the safety inspectors is an indicator of the agency's thoroughness in this area. Based on the PUC's certification agreement to administer this program for the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA), a minimum of 133 inspection days are required.

Inspections: 170 days (133 days required)

Measurement, 2012

Federal Audit

South Dakota's pipeline safety program is field audited annually by PHMSA's Office of Pipeline Safety (Central Region). The agency reviews inspections conducted and citations issued by the PUC and evaluates the commission's adherence to its pipeline procedures plan. The result of the federal review indicates the PUC's ability to carry out its obligations related to pipeline safety. PHMSA also reviews and scores South Dakota's annual certification document submittals. The anticipated but not yet received total score for calendar year 2012 is a 50/50 weighted average of the percentage score for the 2010 field audit and the 2012 certification document submittal. The highest possible score is 100 and the lowest score for any state reported in 2011 was 88.75. This audit score affects the funding South Dakota will receive for calendar year 2013.

Audit score: anticipating 100 out of a possible 100

Measurement, anticipated for 2012

Federal Certification

PUC staff members involved in pipeline safety inspection are required to complete six training courses to become a certified pipeline safety instructor. Additional training is required for certification to conduct specialty inspections in the areas of distribution integrity management programs, public awareness and transmission integrity management. The courses are taught by the federal Pipeline Safety Office of Training and Qualifications and are designed to educate federal and state pipeline safety inspectors in the application of compliance requirements, inspection techniques and enforcement procedures.

Program Manager: Six of six required courses plus nine elective courses completed. Manager is certified to conduct all types of pipeline safety inspections.

Inspector: One required course completed (new inspector)

Staff Attorney: New attorney hired with first class completion anticipated in early 2013

Measurement, training/certification to-date

The PUC assists the South Dakota One Call Board with administering the South Dakota One Call program, commonly referred to as “Call Before You Dig.” This program operates a notification center that informs underground facility operators, such as telephone, electric, petroleum, natural gas, cable television, water and sewer, of any excavation activities. An individual preparing to conduct excavating activities can have underground facilities located by calling 811 to reach the One Call notification center. The center will contact the appropriate facility operators who are responsible to accurately mark the underground facilities affected. Parties failing to comply with the statutes and administrative rules that govern the program are subject to complaint action which may result in a penalty assessed by the board.

The correct application of all elements in the process provides many benefits. Excavators preserve their safety and decrease their liability by knowing the location of underground facilities in advance of their activities. Facility operators have greater assurance their assets are guarded against damage, dislocation and disturbance by clearly marking their facilities. The public receives protection from injury, damage and loss of service when the One Call process is followed.

The commission monitors the success of the program by focusing on three key measures.

Time in Queue

The prompt handling of locate requests is a top priority of the South Dakota One Call program. Each request of the system is handled in the order by which it is received. Queue times indicate the capability of the system’s representatives to understand and appropriately react to the locate requests, affecting the timeline by which the excavator may proceed with their activity.

Average time in queue: 40.66 seconds

Measurement, 2012

Locate Requests and Tickets

The One Call notification center is the hub of the South Dakota One Call program. It is here that incoming locate requests are received, processed and are dispatched to utilities as outbound locate tickets. Trained operators receive inbound requests from excavators to have dig sites marked and issue outbound locate tickets to the affected utilities that dispatch personnel to locate the underground facilities at the respective dig site. An incoming request will typically result in multiple locate tickets, due to multiple utilities having buried facilities at the same dig location. This inbound and outbound traffic is monitored to reveal the amount of excavation activity throughout the state and the general usage of the One Call system.

Incoming locate requests: 133,705

Outgoing locate tickets: 787,683

Measurement, 2012

Complaints Filed

Complaints filed with the One Call Board are reviewed to determine if probable cause of a violation exists. If so, the board may recommend a penalty be assessed. The One Call program’s complaint process is an enforcement as well as an educational tool. Often, parties found in violation were not previously aware of their duties to follow One Call statutes or administrative rules. Processing formal complaints produces enforcement and public awareness results.

Complaints: 17

Measurement, 2012

TELECOMMUNICATIONS

The commission has regulatory authority over some telecommunications providers and services in South Dakota. The PUC issues certificates of authority to certain providers; approves switched access rates for local exchange carriers; designates providers as eligible telecommunication carriers and approves plans for investing Federal Universal Service Funds; and arbitrates disputes between providers. In addition, the commission serves as a resource on emerging issues.

The commission continually assesses its performance in dealing with telecommunications issues, with specific attention paid to these measurements:

Completed Telecommunications Dockets

As with the electric and natural gas category, the number of telecommunications dockets completed each year reveals the agency's ability to manage its duties and workload. The measurement also alerts agency officials if the process by which dockets are assigned, analyzed and acted upon by staff and commissioners is appropriate. The number can also act as a meter of the amount of activity, within the commission's jurisdiction, by telecommunications providers in the state. The commission seeks to process 85 percent of its annual telecommunications dockets within 12 months of a docket being filed.

2012 Telecommunications Dockets

- 179 Completed dockets
 - 48 Completed within approximately 1 month
 - 128 Completed in 2 to 4 months
 - 3 Completed in 5 to 6 months
 - NA Completed in 7 to 12 months
- 18 Uncompleted dockets
- 91% Percentage completed

Measurement, 2012

Overtured Telecommunications Dockets

Parties that file requests or applications with the PUC and intervenors to those dockets have the right to challenge the commission's decision in circuit court. The number of dockets that are overturned by judicial order is an assessment of the manner in which the commission perceives and uses its regulatory authority.

Overtured dockets: None

Measurement, 2012

Wireline Customer Density

Customer density is a valuable measurement tool in the telecommunications industry used to help guide policy decisions. It depicts the customers served per mile of line, which is a standard measurement used to show the relative expense of providing state-of-the-art services in rural areas. The lower the customer density, the more expensive it is to serve. In South Dakota the average is 4.39 wireline customers per line mile, which means it costs roughly twice as much for wireline distribution facilities than it

would for a state with 8.78 customers per line mile.

Approximate wireline customers served per mile of line: 4.39

Measurement, 2012

CONSUMER AFFAIRS

The PUC provides a number of services for consumers. The agency's consumer affairs staff is trained to assist consumers with issues related to their electric, natural gas or telecommunications service, including wireless. They provide educational information about energy efficiency, consumer protection and making wise utility choices. They also offer guidance and referrals for consumers who may have difficulty paying their utility bills. The commission also administers the South Dakota Do Not Call Registry, helping to enroll consumers on the registry and investigating violations against consumers who are on the registry.

The commission evaluates its performance related to consumer affairs by examining the following areas:

Complaints Completed within a Month

Consumer complaints are received by the commission via phone, email and, occasionally, are delivered in-person by the complainant. The PUC strives to quickly and fully investigate each incident by analyzing both sides of the complaint and working with the affected parties to informally reach a resolution. The number of complaints completed within a month reveals the commission's effectiveness in responding to consumers. The goal is 90 percent completed within a month.

Complaints completed within a month: 98%

Measurement, 2012

Formal Consumer Complaints

When a consumer and utility cannot reach a resolution through the informal process, one of the parties may file a formal complaint. A formal complaint is entered into a docket and, unless settled, may result in a hearing before the commission. The commission endeavors to affect complaint resolutions informally and therefore strives for a low number of formal complaints. This measurement is also an assessment of the commission staff's negotiation and mediation skills.

Formal consumer complaints: 0

Measurement, 2012

Do Not Call Registry

The commission continually uses outreach efforts to educate South Dakotans about enrolling their personal telephone number on the Do Not Call Registry to reduce the number of telemarketing calls they receive. In addition to advocacy, the PUC takes an active role and, at the request of a consumer, will enroll their number on the registry. The PUC tracks the number of South Dakota telephone numbers on the registry, noting the amount of growth each year which is an indication of the success of education efforts.

South Dakota telephone numbers on Do Not Call Registry:
604,031 (4% increase)

Measurement, 2012

Regulated Utility Companies

The Commission has territory, complaint and quality of service authority over all natural gas, electric and telecommunications utilities operating within South Dakota. Certain utilities are exempt from the commission's rate regulation. They include municipal, rural electric cooperatives and small, independent and cooperative telephone companies. The commission retains its switched access rate making authority for all telecommunications companies providing local service, including small, independent and cooperative companies.

GROSS RECEIPTS TAX ASSESSMENT PAID BY REGULATED UTILITY COMPANY

The sum of these figures does not correspond with the Gross Receipts Tax Revenues reported on page 7 due to timing issues. Revenues are based on calendar year.

Electric and Natural Gas Companies	\$995,335
Telecommunications Companies	\$841,763

Long Distance Telephone Companies (cont.)

INVESTOR-OWNED ELECTRIC AND NATURAL GAS COMPANIES

Investor-owned electric and natural gas companies provide service to specific geographic areas in South Dakota and are regulated by the PUC. These companies are owned by their investors and are managed as private enterprises.

Black Hills Power Inc.
MidAmerican Energy Co.
Minnesota Energy Resources Corp.
Montana-Dakota Utilities Co.
Northern States Power Co. dba Xcel Energy
NorthWestern Energy
Otter Tail Power Co.
South Dakota Intrastate Pipeline Co.

LONG DISTANCE TELEPHONE COMPANIES

These long distance telephone providers are certified by the PUC to do business in South Dakota. These companies carry traffic between telephone exchanges.

MISSION STATEMENT

The South Dakota Public Utilities Commission will serve and protect South Dakota's consumers by ensuring safe, reliable and high quality utility services. The commission will exercise its authority and influence to ensure that residential and business consumers have access to utility services at fair and reasonable rates. The commission will be proactive and solutions-oriented in striving to maximize consumer utility value and education while working to enhance the economic and environmental well-being for citizens of the state of South Dakota.

The logo for the South Dakota Public Utilities Commission. It features the words "South Dakota" in a dark blue, cursive script font. Below this, the words "PUBLIC UTILITIES COMMISSION" are written in a dark blue, bold, sans-serif, all-caps font.
