RE: TransCanada Keystone Pipeline, LP

Henry Harrison  
Long Soldier District

Dear Mr. Johnson,

Joe Strongheart Sr.  
Wakpala District

On October 19, 2007, the Standing Rock Sioux Tribal Council passed Resolution No. 502-07 opposing the Keystone Project.

Frank White Bull  
Kenel District

Although the Standing Rock Sioux Tribe is not directly affected by the Keystone project, we have concerns because the land where the pipeline is to be built was a travel pathway used by our ancestors. Also, in the event of an oil spill from the Keystone pipeline in North or South Dakota, we believe that it could be a regional disaster with far-reaching impacts.

Joe White Mountain Sr.

Milton Brown Otter  
Rock Creek District

The following are the reasons the Standing Rock Sioux Tribe is opposed to the Keystone Pipeline project.

Frank Jamerson Jr.  
Running Antelope District

Richard D. Bird Jr.  
Porcupine District

- 1) Keystone does not propose to conduct a Class III cultural resources survey and because this was a pathway of our ancestors, we request that a Class III inventory be conducted along the entire Keystone corridor.
- 2) We request that Keystone not only meet federal pipeline safety standards but exceed them in order to reduce potential negative impacts on the environment should there be an oil spill. We also request that Keystone increase the number of valves used to isolate ruptured sections of the proposed pipeline and annually reassess the Emergency Management Plan to incorporate new methodologies.
- 3) The waiver that was granted to the applicant on the maximum pipeline pressure and gauge of the pipe wall gives the impression that rural areas are not considered significant enough to protect with a higher, albeit more expensive quality of pipe.
- 4) Our Tribal Historic Preservation Office was not given ample amount of time to review extensive cultural resource surveys that were prepared and delivered to our office on October 19, 2007.

Sincerely,  
STANDING ROCK SIOUX TRIBE
