

To the P U C commissioners

The proposed path of the pipeline through Marshall County and the BDM water source is to much risk.

We know sometime there will be leaks and a large leak will ruin our water supply.

Farmers and buissness's here have put there whole life in this ~~land~~ country and the amount we would gain is definitely not worth the risk.

We can live without this oil, but we cant live without the water.

The pipe-line must be rerouted for safety of the water and people concerned.

BDM water user
