

Public Utilities Com.

2-23-08

Being a user and member of the B.D.M
and user of the water system. If there
is a way to by-pass the aquifer with
this oil pipeline, It should be
adjusted. Our pipe line costs are many
millions of dollars, to make this
vulnerable to damage, would make it
a incalculable decision. Both projects
are important. But lets not
endanger water sources, when it
can be avoided

Thank you

George Albert Jr
