

To: The PUC Commissioners

I am concerned about the oil pipeline going by the water aquifers that we get our BDM water from. I think the pipeline should be routed around the aquifers. I realize we need the pipeline, but our water source needs to be protected.

I also think we need to have our own inspector watch over the TransCanada pipeline crew, to make sure they follow all regulations. It also would be a good idea to have TransCanada put up Bond ~~to~~ money. To make sure they get any oil spills cleaned up.
