

To the PUC Commissions

RECEIVED
FEB 26 2008
SOUTH DAKOTA PUBLIC
UTILITIES COMMISSION

The proposed route for the Trans Canada
Pipe line through Marshall County has
potential catastrophic effects. The path of the
pipeline crosses thru a surface aquifer
that feeds the aquifer used by the BDM
Rural water system. If the pipeline should fail
it would contaminate water used by hundreds of
rural water users. The route of the pipeline must
be changed to protect the water used by
hundreds of people.
