Subject: RM 13-002

Karen:

I am writing this note in favor of the South Dakota Public Utilities Commission in making rules for docket RM 13-002. The matter of PURPA QF costs in the states needs to be addressed. As a life-long resident of South Dakota managing one of the largest fleets of renewable energy in the US for the largest energy holding company in North America, this is topic that is near and dear to my heart😊

Best,

Steve Scott
