IV. RECIPROCAL TRAFFIC EXCHANGE

A. Scope

This Agreement addresses the exchange of Local Traffic including ISP-Bound Traffic, non-Local Traffic and Transit Traffic between Midcontinent end users and JVT end users.

B. Types of Traffic

Local Traffic, including Local Transit Traffic and ISP-Bound Traffic, and Non-Local Traffic shall be exchanged pursuant to this Agreement at rates discussed in Section VI below.

V. INTERCONNECTION

A. Definition

"Interconnection" is the linking of the Midcontinent and JVT networks for the mutual exchange of traffic. Interconnection does not include the transport and termination of traffic.

B. Physical Point of Interface (POI)

Each Party is responsible for providing its own facilities, including the cost of those facilities, up to the actual physical POI. The Parties shall negotiate the facilities arrangement(s) between their networks and the physical POI. Refer to Appendix B.

C. Traffic Routing

1. The Parties agree to exchange Local Traffic and non-Local Traffic directly and indirectly between their networks.
2. Interconnection for non-Local Traffic may be ordered from the terminating Party's switched access tariff(s).
3. Transit Service may be provided to third party carriers for Local Traffic.
4. Transit Service shall not be provided to third party carriers for traffic which originates on CMRS (Commercial Mobile Radio Service, as defined by the Act) provider networks, or traffic which originates outside the local calling or EAS area of the called Party's end user customer, except in those limited cases where numbers have been ported between the Parties, e.g.,

terminating interexchange carrier traffic where the interexchange carrier did not perform a query to determine the proper routing.

D. Traffic Identification

1. For billing purposes, each Party shall pass original and true Calling Party Number ("CPN") information on each call that is terminated to the other Party. Neither Party will alter the CPN Field.
 - a) If one Party is passing CPN but the other Party is not properly receiving information, the Parties will work cooperatively to correct the problem.
 - b) The CPN shall be used to validate the jurisdictional nature of the traffic, i.e., Local Traffic or Non-Local Traffic and the carrier responsible for compensation associated with the traffic. When the percentage of calls passed without a valid CPN is less than ten percent (10%), all calls exchanged without CPN information will be billed as either Local Traffic or Non-Local Traffic in direct proportion to the minutes of use ("MOU") of calls exchanged with CPN information (excluding ISP-Bound Traffic). If the percentage of calls passed without CPN is greater than ten percent (10%), all calls passed without CPN will be billed as IntraLATA Switched Access Service.

E. Service Interruptions

1. The characteristics and methods of operation of any circuits, facilities or equipment of either Party connected with the services, facilities or equipment of the other Party pursuant to this Agreement shall not: 1) interfere with or impair service over any facilities of the other Party, its affiliated companies, or its connecting and concurring carriers involved in its services; 2) cause damage to their plant; 3) violate any applicable law or regulation regarding the invasion of privacy of any communications carried over the Party's facilities; or 4) create hazards to the employees of either Party or to the public. Each of these requirements is hereinafter referred to as an "Impairment of Service."
2. To facilitate trouble reporting and to coordinate the repair of the service provided by each Party to the other under this Agreement, each Party shall designate a Trouble Reporting Control Office (TRCO) for such service. Each Party shall provide a method for receiving trouble reports on a 24-hour basis. A mechanized recording process that is reviewed during normal business hours shall satisfy this requirement.
3. Each Party shall furnish a trouble reporting telephone number.
4. Before either Party reports a trouble condition, they shall use their best efforts to be sure that the trouble is not caused by its own facilities.

- a. In cases where a trouble condition affects a significant portion of the other's service, the Parties shall assign the same priority provided to other interconnecting carriers.
- b. The Parties shall cooperate in isolating trouble conditions.

VI. Compensation

A. Compensation for ISP-Bound Traffic

The Parties acknowledge they were not exchanging traffic pursuant to an interconnection agreement prior to the date of the FCC's *ISP-Bound Traffic Order*. Pursuant to the *ISP-Bound Traffic Order*, the Parties shall exchange Information Access Traffic pursuant to this Agreement on a Bill and Keep basis.

B. Compensation For Local Traffic

The Parties agree that Local Traffic, other than Information Access Traffic, will be exchanged pursuant to this Agreement and is in balance by plus or minus ten percent (10%). Accordingly Local Traffic pursuant to this Agreement shall be exchanged on a Bill and Keep basis while Local Traffic is in balance.

1. If a Party establishes through a minimum of three (3) months of traffic data that the Local Traffic exchanged between the Parties is out of balance by plus or minus ten (10) percent, and upon receipt of notification that traffic is imbalanced, the Party receiving notice shall be allowed sixty (60) days to validate the traffic data. Upon concurrence of (and within thirty (30) days of the written notice) the Parties that traffic is out of balance, each Party shall begin compensation for Local Traffic terminated for Exchanges shown in Appendix B, pursuant to the rates in Appendix A.

C. Compensation for Non-Local Traffic

Non-Local Traffic is subject to Access Service charges under each Party's State or Interstate Access Service tariffs. Non-Local Traffic includes:

1. Traditional toll traffic, e.g. 1+ between End Users not physically located in rate centers which the Commission has designated as local or EAS. The Party transporting the call between exchanges is responsible for payment of originating or terminating Switched Access charges to the other Party.
2. Originating and terminating foreign exchange traffic or traffic which would be rated as Local Traffic based on the rate centers associated with the originating and terminating numbers, but actually originates and terminates in different local calling areas, due to the physical location of end user customers. The Party offering common carrier service between exchanges is responsible for payment of originating or terminating Switched Access charges to the other Party depending on the directionality of the call.

3. Optional EAS calling plans which extend local calling beyond the local or EAS calling established by the Commission. The Party offering common carrier service between exchanges is responsible for payment of originating or terminating Switched Access charges to the other Party.

D. Transit Traffic

1. Local Transit Traffic:

The Parties agree that Local Transit Traffic, consistent with Section C above V.C. above, shall be exchanged, with compensation owed to the terminating Party from the third-party carrier. Upon request, the Party providing the transit service to the third-party carrier will provide traffic reports and/or billing records ("Transit Usage Records") to the party terminating Transit Traffic.

2. Non-Local Transit Traffic:

The Parties agree that Non-Local Transit Traffic, consistent with Section V.C.3 and V.C.4 above, shall be exchanged. The Party providing Non-Local Transit Traffic to third party carriers is responsible for provision of Transit Usage Records to the terminating Party or payment of access charges for such traffic.

3. Transit Usage Reports

Upon request, the Party providing the Transit Services to the third-party carriers for Local Traffic and Non-Local Traffic will provide traffic reports and/or billing records ("Transit Usage Records") to the party terminating Transit Traffic.

- a) Transit Usage Reports shall identify the third-party carrier which originated the Transit Traffic by Carrier Identification Code (CIC) or Operating Company Number (OCN).
- b) Transit Usage Reports shall identify the usage period and the actual usage in minutes of use.

VII. Billing and Payment

A. Billing Period.

Each Party shall bill on a monthly basis for services provided under this Agreement.

B. Invoices.

The Parties shall include minutes of use on its invoices to enable the other Party to reasonably verify the accuracy of the usage, charges, and credits.

C. Payment

1. The Parties shall pay invoices within forty-five (45) days of receipt of the invoice.
2. Disputed Amounts. A Party must give written notice to the other Party identifying any dispute of an invoiced amount. A Party may withhold payment of a properly disputed portion of an invoice, but must timely pay the undisputed portion. The Parties agree that they will each make a good faith effort to promptly resolve any billing dispute.
 - a) If a Party properly disputes charges and withholds payment of the disputed amount, such amount shall be subject to late payment charges as set forth in VII.C.3 following.
 - (1) If the dispute is resolved in favor of the invoicing Party, and the disputed amount plus the late payment charge shall be paid to the invoicing Party within twenty (20) days of resolution of the dispute.
 - (2) If the dispute is resolved in favor of the disputing Party, then the invoicing Party shall credit the invoice of the disputing Party for the amount of the disputed charges, plus any late payment charges assessed on such amount no later than the second bill date after the resolution of the dispute.
3. Late Payment Charges. Any amounts owed under the terms of this Agreement by one Party to the other Party, if not paid when due, shall be subject to a late payment fee of one and one-half percent (1½%) per month. Notwithstanding the foregoing, neither Party shall be liable for any under billed charges for which usage data was not furnished by a third party.

VIII. DIALING PARITY

The Parties shall provide Dialing Parity to each other as required under Section 251(b) (3) of the Act.

IX. NOTICE OF CHANGES

If a Party makes a change in its network that it believes will materially affect the inter-operability of its network with the other Party, the Party making the change shall provide advance notice of such change to the other Party.

X. MISCELLANEOUS TERMS

A. General Provisions

1. Each Party is individually responsible to provide facilities within its network on its side of the POI which are necessary for routing, transporting, measuring, and billing traffic from the other Party's network and for

delivering such traffic to the other Party's network in the standard format compatible with the other Party's network and to terminate the traffic it receives in that standard format to the proper address on its network. Such facility shall be designed based upon the description and forecasts provided under this Agreement. Each party is responsible for the cost of facilities on its side of the POI whether the Party uses owned or leased facilities of another party. Either Party may purchase access facilities from the other Party at the rates, terms and conditions of the other Parties Interstate or Intrastate Access Tariff or pricelist.

2. Neither Party shall use any service related to or use any of the services provided in this Agreement in any manner that interferes with other persons in the use of their service, prevents other persons from using their service, or otherwise impairs the quality of service to other carriers or to either Party's customers, and each Party may discontinue or refuse service if the other Party violates this provision. Upon such violation, either Party shall provide the other Party notice of such violation, if practicable, at the earliest practicable time.
3. Each Party is solely responsible for the services it provides to its customers and to other Telecommunications Carriers.
4. The Parties shall work cooperatively to minimize fraud associated with third-number billed calls, calling card calls, and any other services related to this Agreement.

Whenever possible, these amounts shall be billed as a separate item on the invoice.

Recipient shall have no obligation to safeguard Confidential Information (i) which was in the Recipient's possession free of restriction prior to its receipt from Disclosing Party, (ii) after it becomes publicly known or available through no breach of this Agreement by Recipient, (iii) after it is rightfully acquired by Recipient free of restrictions on its Disclosing Party, or (iv) after it is independently developed by personnel of Recipient to whom the Disclosing Party's Confidential information had not been previously disclosed. Recipient may disclose Confidential Information if required by law, a court, or governmental agency, provided that Disclosing Party has been notified of the requirement promptly after Recipient becomes aware of the requirement, and provided that Recipient undertakes all reasonable lawful measures to avoid disclosing such information until Disclosing Party has had reasonable time to obtain a protective order. Recipient agrees to comply with any protective order that covers the Confidential Information to be disclosed.
3. Each party agrees that Disclosing Party would be irreparably injured by a breach of this Agreement by Recipient or its representatives and that Disclosing Party shall be entitled to seek equitable relief, including injunctive relief and specific performance, in the event of any breach of this paragraph. Such remedies shall not be exclusive, but shall be in addition to all other remedies available at law or in equity.

RE: **MIDCONTINENT COMMUNICATIONS; NVC AND JVT AGREEMENTS**
OUR FILE: 0053

Dear Doug:

Enclosed are fully-signed original counterparts of the JVT EAS Agreement and the NVC Interconnection Agreement. You will note that spacing of the text in both might be slightly different from the final version of these agreements that I sent you on September 4. The version of the signature pages that you signed and sent to me was slightly different than that which resulted when all the changes were made. Thus, my secretary had to modify spacing and format somewhat to get them to "come out even." No words have been changed, other than I made a reference on the Appendix B page of both agreements referring to the attached map.

With a copy of this letter, I am sending a fully-signed original counterpart of the EAS Agreement to Tom Simmons. I am also sending him a copy of the Interconnection Agreement. I am using the original Interconnection Agreement to file with the Commission for approval.

Yours truly,

MAY, ADAM, GERDES & THOMPSON LLP
