Subject: RE: Dakota Access Pipeline

I **oppose** the building of the pipeline across South Dakota. I believe the benefits are overstated and the risks are understated. In addition, I feel that individual property rights are being discounted in favor of corporate development. Over the past 25 years I am aware of several incidences where individual small owners are deprived of their property under the guise of the potential for greater tax income from corporate developers. In the case of the two proposed pipelines, the corporate interests are not even American. Yet, the people's representatives seem to be willing to exercise eminent domain for non-Americans. This is something I cannot accept. I urge you to **deny** the permits to build the pipelines.
