NOTICE OF PUBLIC MEETINGS

On December 15, 2014, Dakota Access, LLC, a Delaware limited liability company and subsidiary of Energy Transfer Partners, L.P., a Delaware master limited liability company, filed with the South Dakota Public Utilities Commission (Commission) an Application for Facility Permit (Application) to construct and operate the Dakota Access Pipeline Project, a proposed 1,134 mile 12-inch to 30-inch diameter pipeline that will connect the Bakken and Three Forks crude oil production areas in North Dakota to existing pipeline infrastructure in Illinois (Project). The Project would originate in the northwest portion of North Dakota, traverse southeast through North Dakota, South Dakota, and Iowa and terminate at an existing pipeline hub near Patoka, Illinois. The Project proposes to transport approximately 450,000 barrels of crude oil per day (bpd) with a capacity up to 570,000 bpd. Approximately 271.6 miles of the 1,134-mile-long pipeline would be constructed within South Dakota, crossing 13 counties in the eastern half of the state. The Project would enter South Dakota in Campbell County, approximately 17 miles east of the Missouri River and continue southeast through McPherson, Edmunds, Faulk, Spink, Beadle, Kingsbury, Miner, Lake, McCook, Minnehaha, Turner, and Lincoln Counties. The Project would cross the Big Sioux River approximately 14 miles south of Sioux Falls and continue southeast through Iowa into Illinois.
