Re: *General Permit for Temporary Discharge Activities (SDG071217) – Outfall Addition*

Dear Mr. Mahmoud:

A Notice of Intent (NOI) for coverage under South Dakota's General Permit for Temporary Discharge Activities was received from Dakota Access, LLC on April 27, 2016. Dakota Access, LLC was approved for coverage under the general permit on April 27, 2016, permit number SDG071217. Coverage was granted for nine (9) outfall locations identified in the NOI.

Two additional NOI forms were received on July 15, 2016 from Dakota Access, LLC requesting coverage under the general permit for 11 additional locations. These 11 locations will be covered under the permit number listed above (SDG071217) in addition to the nine (9) original locations identified in the NOI received April 27, 2016.

A summary table of the approved additional discharge locations and the limits associated with each discharge location is included on pages two and three of this letter. Outfalls 001 through 009 are not included in the table; however, these outfalls are still approved for discharges at the locations specified in original approval letter dated April 27, 2016. The associated limits for Outfalls 001 through 009 will be unchanged.

Thank you for your interest in protecting the natural resources of South Dakota. If you have any questions, please contact me at (605) 773-3351 or by email at kelsey.holbrook@state.sd.us.

Sincerely,

A handwritten signature in cursive script that reads "Kelsey Holbrook".
