SUBJECT: Intensive Historic Building Survey and Evaluation for the Brookings County Substation to SD/MN Border Segment of the CapX 2020 Brookings County, South Dakota to Hampton, Minnesota 345 Kilovolt Transmission Line Project

Dear Ms. Olson:

In November 2010, Great River Energy, as agent for Great River Energy; Central Minnesota Municipal Power Agency; Western Minnesota Municipal Power Agency; Otter Tail Power Company; and Northern States Power Company, a Minnesota corporation, d/b/a Xcel Energy (jointly "Applicant") filed a Facility Permit application with the South Dakota Public Utilities Commission (Commission) (Docket No. EL10-016) for the Brookings County Substation to SD/MN Border segment of the CapX 2020 Brookings County to Hampton 345 kilovolt (kV) transmission line Project (The Project).

On June 17, 2011, the Commission issued an order granting a joint motion for approval of the Settlement Stipulation and granting a permit to construct facilities. As a condition of the Settlement Stipulation, the Applicant agreed to sponsor an archaeological and historic structures inventory of the facility area in a manner consistent with the Secretary of the Interior's Standards and Guidelines for Archaeology and Historic Preservation, the South Dakota State Historical Society Guidelines for Cultural Resource Surveys and Survey Reports (2005), and the South Dakota Historic Resource Survey Manual (2006).

To comply with the conditions for a historic structures inventory as set forth in the Settlement Stipulation, HDR, on behalf of the Applicant, conducted an intensive historic building survey and evaluation of the Study Area (defined as a one-mile buffer around the transmission line ROW in South Dakota) in accordance with the South Dakota Historic Resource Survey Manual.

A copy of the intensive historic building survey and evaluation report is enclosed for your review. If you need any additional information for your review, please contact Dylan Eigenberger at 612-597-1589 (dylan.eigenberger@hdrinc.com) or Mike DeRuyter at 763-591-5479 (michael.deruyter@hdrinc.com).

Paige Olson
CapX 2020 Brookings County to Hampton 345 kV Transmission Line
