Subject: Upcoming rate increase

Sent: Apr 5, 2014 6:16 PM

I am sorry for all the people who had loses from the October blizzard. But the power company elected to not have insurance. Sounds like they made a poor choice, and now want the costumers to pick up the tab. We all had loses to deal with and no one to run to.

I don't think it a rate increase because of blizzard should be approved.
