**RE: In the Matter of Otter Tail Power Company's Request for Approval to Revise its Fuel Adjustment Clause Rider to Include Emissions Controls Costs
Docket No. EL14-070
Bill Insert update**

Dear Ms. Van Gerpen:

On September 18, 2014, the South Dakota Public Utilities Commission ("Commission") issued an order approving Otter Tail Power Company's ("Otter Tail") request to revise its Fuel Adjustment Clause Rider to include expenses associated with the purchase of certain emission allowances and reagent expenses necessary to comply with federal rules in Docket No. EL14-070. The customer notice, which will be distributed to all South Dakota customers in December 2014 and was approved in the initial filing, has been slightly altered.

Please note that the words "will begin" were changed to "began" in the third sentence. Also, the phrase "Resource Adjustment line" in sentence four has been changed to "Energy Adjustment line". No other changes were made to the customer notice. Below is how it appears on the December 2014 bill insert for customers.

Notice to customers

Otter Tail Power Company incurs costs for reagents (substances used to capture and process emissions) and purchased emission allowances that are necessary for compliance with federal regulations enforced by the Environmental Protection Agency. To recover these costs, the South Dakota Public Utilities Commission has approved an adjustment to the Fuel Adjustment Clause Rider that is part of the Energy Adjustment line on your monthly electric service statement. Otter Tail began incurring costs on October 1, 2014. Once Otter Tail complies with all regulations the expected monthly bill impact a customer will see is shown in the table below.

Average Monthly Customer Impact			
1,000	kWh	\$	0.98
8,000	kWh	\$	7.84
