While the market dispatch methodology is identical to the methodology used in the prior avoided cost rate filing, the data used in the present filing includes the allocation of the generation production costs¹ that serve and are allocated to the Iowa and South Dakota retail jurisdictions. The data used in the market dispatch allocates the remainder of the generation to all three jurisdictions.

Any questions pertaining to this tariff filing may be directed to Diane Votino at (563) 333-8382.

Sincerely,
