Sirs

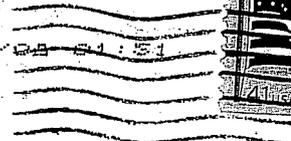

I will make this short and to the point. In the February 24th issue of the American News, Kent Moeckly had an article that told of many peoples fears about the pipe line.

You can do with out many things in this world, but if you don't have water you are DONE. Why aren't experts on the matter listened to? A pipe line may be used for a few years then abandoned for what ever reason. Our natural water source should not be put at risk for any reason.
