RE: Humboldt Municipal Gas Utilities

PS: 15-001

Dear Ms. Edwards:

Humboldt Municipal Gas Utility plans on completing its hiring of an additional employee for 20 hours per week. This person will be dedicated solely to natural gas, including field work and paperwork. The required certifications will be obtained by this employee.

In addition to this position, Daryl Seiverding will continue his role with the natural gas utilities of 15-20 hours per week.

The required certifications will be continued and obtained by these 2 positions. In addition to this, the Humboldt Municipality Board Members email contact information has been provided to Mary Zanter so there will not be any lack of communication going forward.

Our goal as a gas board is to ensure optimal safety for the town of Humboldt and to be in compliance with training and to ensure back up including but not limited to emergency plan procedures and qualifications.

Sincerely,

Humboldt Gas Board
