APPLICATION FOR AUTHORIZATION

Weston Telecommunications, LLC (hereinafter "Applicant") respectfully requests that the Public Utilities Commission of the State of South Dakota (hereinafter referred to as "Commission") grant Applicant authority pursuant to SDCL 49-31-3 and in accordance with ARSD 20 10 24 02 to provide intrastate telecommunications services to the public within South Dakota through the resale of similar services offered by other interexchange carriers ("IXCs") in the State. Applicant further requests that the Commission approve its initial proposed tariff. Applicant, for purposes of verification, and in evidence of its fitness to operate and the public need for its services, offers the following information in support of this Application:

Identification of the Applicant

1. Applicant maintains its headquarters at Summit II, 3030 Brockville Road, Rockford, OH 44286.
2. Applicant is organized under the laws of the State of Ohio. A copy of the Company's Articles of Organization is attached hereto as **Exhibit A**. Applicant has the authority to transact business within the State of South Dakota as a foreign corporation. A copy of the qualifying document is set forth in **Exhibit B** hereto.

3. Correspondence regarding this Application should be directed to

Patrick D. Crocker
EARLY, LENNON, CROCKER & BARTOSIEWICZ, P.L.C.
900 Comerica Building
Kalamazoo, MI 49007-4752
(616) 381-8844

4. The name of Applicant's Registered Agent, and the address of the registered office of the corporation in South Dakota is:

Ronald D. Olinger
117 East Capitol
Pierre, SD 57501

Description of Authority Requested

5. Applicant seeks authority to operate as a reseller of intrastate telecommunications services to the public on a statewide basis. Applicant seeks authority to offer a full range of "1-800" interexchange telecommunications services on a resale basis. Specifically, Applicant seeks authority to provide MTS, in-WATS, out-WATS, and Calling Card services.

6. Applicant does not intend to provide operator services, 900 or 700 services.

7. Applicant owns no transmission facilities. Applicant will offer service to its subscribers using facilities of the communications networks of Global Crossing, other facilities-based IXCs and the local exchange telephone companies ("LECs").

8. Applicant has no plans at this time to construct any telecommunications transmission facilities of its own and seeks no construction authority by means of this Application. Applicant will operate exclusively as a reseller.

9. Applicant will abide by all rules governing telecommunications resellers, which the Commission has promulgated or may promulgate in the future, unless application of such rules is specifically waived by the Commission.

Proposed Services

10. Applicant intends to offer MTS, in-WATS, out-WATS, and Calling Card services to subscribers within South Dakota. Applicant combines high quality transmission services with very competitive rates, flexible end user billing, professional customer service and excellent reporting to create a unique blend, which meets the individualized needs of such customers.

11. Applicant's services are designed to be especially attractive to primarily residential users.

12. Applicant intends to engage in "switchless" resale. Applicant will arrange for the traffic of underlying subscribers to be routed directly over the networks of Applicant's network providers.

13. Applicant is committed to the use of ethical sales practices. All distributors of its products must commit in writing to market Applicant's services in a professional manner, and to fairly and accurately portray Applicant's services and the charges for them.

Description and Fitness of Applicant

14. Applicant's officers have extensive managerial, financial and technical experience with which to execute the business plan described herein. Applicant's management personnel represent a broad spectrum of business and technical disciplines, possessing many years of individual and aggregate telecommunications experience. In support of Applicant's managerial and technical ability to provide the services for which authority is sought herein, Applicant submits a description of the background and experience of its current management team as Exhibit C. In support of Applicant's financial ability to provide the proposed services, Applicant attaches a recent Income Statement and Balance Sheet as Exhibit D.

Public Interest Considerations

15 Applicant's entry into the South Dakota marketplace is in the public interest because Applicant intends to make a uniquely attractive blend of service quality, network management and reporting, and low rates available.

16 In addition to the direct benefits delivered to the public by its services, Applicant's entry into the South Dakota marketplace will benefit the public indirectly by increasing the competitive pressure felt by existing IXCs, spurring them to lower costs and improve services in response.

Requested Regulatory Treatment

17 Applicant is a non-dominant reseller of interexchange telecommunications services. Applicant requests to be regulated by the Commission in the same relaxed fashion extended to other, similarly situated resellers.

Initial Proposed Tariff

18 Applicant proposes to offer service pursuant to the rules, regulations, rates and other terms and conditions included in Applicant's initial proposed tariff, which is attached hereto as Exhibit E. Billing, payment, credit, deposit and collection terms are set forth in Applicant's proposed tariff.

Compliance with ARSD 20:10:24:02

19 In accordance with ARSD 20:10:24:02, Applicant provides the following information:

- (4). Applicant is a Limited Liability Company organized under the laws of Ohio.
- (5). See paragraph 5 of the Application.
- (6). See paragraph 6 of the Application.
- (7). Applicant shall offer services on all equal-access areas within the State of South Dakota. Accordingly, Applicant does not attach a map describing service boundaries.
- (8). See Exhibits D and E attached hereto.
- (9). All complaints and regulatory matters should be directed to Applicant's attorney as set forth in paragraph 3 of this Application.

Applicant's Cost for Underlying Transport Services

20. Applicant proposes to resell services within South Dakota in excess of Applicant's cost of purchasing services from Applicant's underlying carrier Global Crossing. Applicant purchases intrastate services from Global Crossing for approximately \$0.12 per minute and resells to the public for approximately \$0.15 a minute.

Conclusion

21. A decision by the Commission to grant Applicant a Certificate of Public Convenience and Necessity is plainly in the public interest. Applicant will introduce important new products and services at very competitive rates as well as enhance the competitiveness of the overall long distance market in South Dakota.

WHEREFORE, WESTON TELECOMMUNICATIONS, LLC respectfully requests that this Commission grant it authority to transact the business of a reseller of interexchange telecommunications services within the State of South Dakota, that the Commission regulate it in a streamlined fashion, and that the Commission approve Applicant's initial proposed tariff effective on the date of the Order granting authority.

Respectfully submitted,

- 2.1.3. Company, when acting at the Customer's request and as its authorized agent, will make reasonable efforts to arrange for Service requirements, such as special routing, Diversity, Alternate Access, or circuit conditioning.

- 2.1.9. The Company reserves the right to discontinue furnishing Services or billing options, upon written notice, when necessitated by conditions beyond its control. Conditions beyond the Company's control include, but are not limited to, a Customer's buying Call volume or a calling pattern that results, or may result, in network blockage or other Service degradation which adversely affects Service to the calling party, the Customer, or other Customers of the Company.
- 2.1.10. Except as otherwise provided in this Tariff or as specified in writing by the party entitled to receive Service, notice may be given orally or in writing to the persons whose names and business addresses appear on the executed Service order and the effective date of any notice shall be the date of delivery of such notice, not the date of mailing. - 2.3.5. The failure to give notice of default, to enforce or insist upon compliance with any of the terms or conditions herein, the waiver of any term or conditions herein, or the granting of an extension of time for performance by the Company or the Customer shall not constitute the permanent waiver of any term or condition herein. - 2.3.6. In the event parties other than Customer (e.g., Customer's customers) shall have use of the Service directly or indirectly through Customer, then Customer agrees to forever indemnify and hold Company and any affiliated or unaffiliated third-party, third-party provider or operator of facilities employed in provision of the Service harmless from and against any and all claims, demands, suits, actions, losses, damages, assessments or payments which may be asserted by said parties arising out of or relating to any Defects.
- 2.3.7. In the event that Company is required to perform a Circuit redesign due to inaccurate information provided by the Customer; or, circumstances in which such costs and expenses are caused by the Customer or reasonably incurred by the Company for the benefit of the Customer, the Customer is responsible for the payment of all such charges.

2.4. Cancellation of Service by a Customer

- 2.4.1. If a Customer cancels a Service Order before the Service begins, before completion of the Minimum Period, or before completion of some other period mutually agreed upon by the Customer and the Company, a charge will be levied upon the Customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of the Customer by the Company and not fully reimbursed by Installation and monthly charges. If, based on a Service order by a Customer, any construction has either begun or been completed, but no Services provided, the nonrecoverable costs of such construction shall be borne by the Customer.
- 2.4.2. Upon thirty (30) days' prior written notice, either Customer or Company shall have the right, without cancellation charge or other liability, to cancel the affected portion of the Service, if the Company is prohibited by governmental authority from furnishing said portion, or if any material rate or term contained herein and relevant to the affected Service is substantially changed by order of the highest court of competent jurisdiction to which the matter is appeal, the Federal Communications Commission, or other local, state or federal government authority.

2.5. Cancellation for Cause by the Company

- 2.5.1. Upon nonpayment of any sum owing to the Company, or upon a violation of any of the provisions governing the furnishing of Service under this Tariff, the Company may, upon five business days written notification to the Customer, except in extreme cases, without incurring any liability, immediately discontinue the furnishing of such Service. The written notice may be separate and apart from the regular monthly bill for service. Customer shall be deemed to have canceled Service as of the date of such disconnection and shall be liable for any cancellation charges set forth in this Tariff.

- 2.5.2. Without incurring any liability, the Company may discontinue the furnishing of Service(s) to a Customer upon five business days written notice if the Company deems that such action is necessary to prevent or to protect against fraud or to otherwise protect its personnel, agents, facilities or Services under the following circumstances, except under extreme cases where the customer may be disconnected immediately and without notice:
- 2.5.2.A. if the Customer refuses to furnish information to the Company regarding the Customer's credit-worthiness, its past or current use of common carrier communications Services or its planned use of Service(s);
- 2.5.2.B. if the Customer provides false information to the Company regarding the Customer's identity, address, credit-worthiness, past or current use of Customer communications Services, or its planned use of the Company Service(s);
- 2.5.2.C. if the Customer states that it will not comply with a request of the Company for reasonable security for the payment for Service(s);
- 2.5.2.D. if the Customer has been given five business days written notice in a separate mailing by the Company of any past due amount (which remains unpaid in whole or in part) for any of the Company's communications Services to which the Customer either subscribes or had subscribed or used;
- 2.5.2.E. in the event of unauthorized use.
- 2.5.2.F. Following the disconnection of service for any of these reasons, the Company or the local exchange utility acting as Company agent, will notify the telephone user/customer that service was disconnected and why. The notice will include all reasons for the disconnection and will include a toll-free number where an end user/customer can obtain additional information. Notice shall be deemed given upon deposit, postage prepaid, in the U.S. Mail to the end user's/customer's last known address and in compliance with the Commission's rules.
- 2.5.3. The discontinuance of Service(s) by the Company pursuant to this Section does not relieve the Customer of any obligations to pay the Company for charges due and owing for Service(s) furnished up to the time of discontinuance. The remedies set forth herein shall not be exclusive and the Company shall at all times be entitled to all rights available to it under either law or equity.

2.6. Credit Allowance

- 2.6.1. Credit allowance for the interruption of Service is subject to the general liability provisions set forth in this Tariff. Customers shall receive no credit allowance for the interruption of service which is due to the Company's testing or adjusting, negligence of the Customer, or to the failure of channels or equipment provided by the Customer. The Customer should notify the Company when the Customer is aware of any interruption in Service for which a credit allowance is desired. Before giving such notice, the Customer shall ascertain that the trouble is not being caused by any action or omission within Customer's control, or is not in wiring or equipment, if any, furnished by the Customer in connection with the Company's Services.
- 2.6.2. No credit is allowed in the event service must be interrupted in order to provide routine service quality or related investigations.
- 2.6.3. No credit shall be allowed:

- 2.6.5. Credits are applicable only to that portion of Service interrupted.
- 2.6.6. For purposes of credit computation, every month shall be considered to have 720 hours.
- 2.6.7. No credit shall be allowed for an interruption of a continuous duration of less than two hours.
- 2.6.8. The Customer shall be credited for an interruption of two hours or more at a rate of 1/720th of the monthly recurring charge for the service affected for each hour or major fraction thereof that the interruption continues. Calculations of the credit shall be made in accordance with the following formula.

Credit Formula:

$$\text{Credit} = \frac{A}{720} \times B$$

"A" = outage time in hours

"B" = total monthly charge for affected facility

2.7. Use of Service

- 2.7.1 The Services offered herein may be used for any lawful purpose, including residential, business, governmental, or other use. There are no restrictions on sharing or resale of Services. However, the Customer remains liable for all obligations under this Tariff notwithstanding such sharing or resale and regardless of the Company's knowledge of same. The Company shall have no liability to any person or entity other than the Customer and only as set forth in Section 2.3. The Customer shall not use nor permit others to use the Service in a manner that could interfere with Services provided to others or that could harm the facilities of the Company or others.

In the event that the designated Customer fails to pay the Company, each joint user or Authorized User shall be liable to the Company for all charges incurred as a result of its use of the Company's Service.
- 2.7.3. In addition to the other provisions in this Tariff, Customers reselling Company Services shall be responsible for all interaction and interface with their own subscribers or customers. The provision of the Service will not create a partnership or joint venture between Company and Customer nor result in a joint communications Service offering to the Customers of either the Company or the Customer.
- 2.7.4. Service furnished by the Company shall not be used for any unlawful or fraudulent purposes.
- 2.7.5. The Customer will be billed directly by the LEC for certain Dedicated Access arrangements selected by the Customer for the provisioning of direct access arrangements. 2.8. Payment Arrangements

- 2.8.1. The Customer is responsible for payment of all charges for Services furnished to the Customer or its joint or Authorized Users. This responsibility is not changed due to any use, misuse, or abuse of the Customer's Service or Customer provided equipment by third parties, the Customer's employees, or the public.
- 2.8.2. The Company's bills are due upon receipt. Amounts not paid within 30 days from the Bill Date of the invoice will be considered past due. Customers will be assessed a late fee on past due amounts in the amount not to exceed the maximum lawful rate under applicable state law. If a Customer presents an undue risk of nonpayment at any time, the Company may require that Customer to pay its bills within a specified number of days and to make such payments in cash or the equivalent of cash.
- 2.8.3. In determining whether a Customer presents an undue risk of nonpayment, the Company shall consider the following factors: (A) the Customer's payment history (if any) with the Company and its affiliates, (B) Customer's ability to demonstrate adequate ability to pay for the Service, (C) credit and related information provided by Customer, lawfully obtained from third parties or publicly available, and (D) information relating to Customer's management, owners and affiliates (if any).
- 2.8.4. Disputes with respect to charges must be presented to the Company in writing within 180 days from the date the invoice is rendered or such invoice will be deemed to be correct and binding on the Customer. While the charge is in dispute, the customer shall only be required to pay the undisputed portion in full.
- 2.8.5. If a LEC has established or establishes a Special Access surcharge, the Company will bill the surcharge beginning on the effective date of such surcharge for Special Access arrangements presently in Service. The Company will cease billing the Special Access surcharge upon receipt of an Exemption Certificate or if the surcharge is removed by the LEC.
- 2.8.6. In the event the Company incurs fees or expenses, including attorney's fees, in collecting, or attempting to collect, any charges owed the Company, the Customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.
- 2.8.7. Company will not require deposits or advance payments by Customers for Services.

2.9. Assignment

2.9.1. The obligations set forth in this Tariff shall be binding upon and inure to the benefit of the parties hereto and their respective successors or assigns, provided, however, the Customer shall not assign or transfer its rights or obligations without the prior written consent of the Company.

2.10. Tax and Fee Adjustments

2.10.1. All state and local taxes (i.e., gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates.

2.10.2. If at any future time a municipality acquires the legal right to impose an occupation tax, license tax, permit fee, franchise fee or other similar charge upon the Carrier, and imposes the same by ordinance or otherwise, such taxes, fees or charges shall be billed to the end users receiving service within the territorial limits of such municipality. Such billing shall allocate the tax, fee or charge among end users uniformly on the basis of each end user's monthly charges for the types of service made subject to such tax, fee or charge.

2.10.3. If at any future time a county or other local taxing authority acquires the legal right to impose an occupation tax, license tax, permit fee, franchise fee or other similar charge upon the Carrier, and imposes the same by ordinance or otherwise, such taxes, fees or charges shall be billed to the end users receiving service within the territorial limits of such county or other taxing authority. Such billing shall allocate the tax, fee or charge among end users uniformly on the basis of each end user's monthly charges for the types of service made subject to such tax, fee or charge.

2.10.4. When utility or telecommunications assessments, franchise fees, or privilege, license, occupational, excise, or other similar taxes or fees, based on interstate or intrastate receipts are imposed by certain taxing jurisdictions upon the Company or upon local exchange companies and passed on to the Company through or with interstate or intrastate access charges, the amounts of such taxes or fees will be billed to Customers in such a taxing jurisdiction on a prorated basis. The amount of charge that is prorated to each Customer's bill is determined by the interstate or intrastate telecommunications service provided to and billed to an end user/customer service location in such a taxing jurisdiction with the aggregate of such charges equal to the amount of the tax or fee imposed upon or passed on to the Company.

- 2.10.5. When any municipality, or other political subdivision, local agency of government, or department of public utilities imposes upon and collects from the Company a gross receipts tax, occupation tax, license tax, permit fee, franchise fee or regulatory fee, such taxes and fees shall, insofar as practicable, be billed pro rata to the Company's Customers receiving service within the territorial limits of such municipality, other political subdivision, local agency of government, or public utility commission.
- 2.10.6. The Company may adjust its rates and charges or impose additional rates and charges on its Customers in order to recover amount it is required by governmental or quasi-governmental authorities to collect from or pay to others in support of statutory or regulatory programs. Examples of such programs include, but are not limited to, the Universal Service Fund, the Primary Interexchange Carrier Charge, and compensation to payphone service providers for use of their payphones to access the Company's services.

2.11. Method for Calculation of Airline Mileage

- 2.11.1. The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) coordinates of the serving wire centers associated with the Company's POP locations. The method for calculating the airline mileage is obtained by reference to AT&T's Tariff F.C.C. No. 10 in accordance with the following formula:

$$\text{the square root of: } \frac{(V1-V2)^2 + (H1-H2)^2}{10}$$

where V1 and H1 correspond to the V&H coordinates of City 1 and V2 and H2 correspond to the V&H coordinates of City 2.

Example:		<u>V</u>	<u>H</u>
	City 1	5004	1406
	City 2	5987	3424

$$\text{the square root of: } \frac{(5004-5987)^2 + (1406-3424)^2}{10}$$

The result is 709.83 miles. Any fractional miles are rounded to the next higher whole number; therefore, the airline mileage for this example is 710 miles.

2.12. Time of Day Rate Periods

2.12.1. Time of Day Rate Periods are determined by the time of day at the location of the Calling Station.

Description of Authority Requested

Applicant seeks authority to operate as a reseller of intrastate telecommunications services to the public on a statewide basis. Applicant seeks authority to offer a full range of "1+" interexchange telecommunications services on a resale basis. Specifically, Applicant seeks authority to provide MTS, in-WATS, out-WATS, and Calling Card services.

Applicant does not intend to provide operator services, 900 or 700 services.

Applicant owns no transmission facilities. Applicant will offer service to its subscribers using facilities of the communications networks of Global Crossing, other facilities-based IXCs and the local exchange telephone companies ("LECs").

Applicant has no plans at this time to construct any telecommunications transmission facilities of its own and seeks no construction authority by means of this Application. Applicant will operate exclusively as a reseller.

Applicant will abide by all rules governing telecommunications resellers, which the Commission has promulgated or may promulgate in the future, unless application of such rules is specifically waived by the Commission.

Proposed Services

10 Applicant intends to offer MTS, in-WATS, out-WATS, and Calling Card services to ~~customers~~ within South Dakota. Applicant combines high quality transmission services with very ~~competitive rates~~, flexible end user billing, professional customer service and excellent reporting to ~~create a unique blend~~, which meets the individualized needs of such customers.

11 Applicant's services are designed to be especially attractive to primarily residential ~~users~~.

12 Applicant's intends to engage in "switchless" resale. Applicant will arrange for the ~~traffic of underlying subscribers~~ to be routed directly over the networks of Applicant's network ~~providers~~.

13 Applicant is committed to the use of ethical sales practices. All distributors of its ~~products must~~ commit in writing to market Applicant's services in a professional manner, and to ~~fairly and accurately~~ portray Applicant's services and the charges for them.

Description and Fitness of Applicant

14 Applicant's officers have extensive managerial, financial and technical experience ~~with which to execute~~ the business plan described herein. Applicant's management personnel ~~represent a broad spectrum~~ of business and technical disciplines, possessing many years of ~~individual and aggregate~~ telecommunications experience. In support of Applicant's managerial and ~~technical ability~~ to provide the services for which authority is sought herein, Applicant submits a ~~description of the background and experience~~ of its current management team as **Exhibit C**. In ~~support of Applicant's financial ability~~ to provide the proposed services, Applicant attaches a recent ~~Income Statement, Balance Sheet, and Cash Flow Statement~~ as **Exhibit D**.

Public Interest Considerations

14 Applicant's entry into the South Dakota marketplace is in the public interest because Applicant intends to make a uniquely attractive blend of service quality, network management and reporting, and low rates available.

16 In addition to the direct benefits delivered to the public by its services, Applicant's entry into the South Dakota marketplace will benefit the public indirectly by increasing the competitive pressure felt by existing IXCs, spurring them to lower costs and improve services in response.

Requested Regulatory Treatment

17 Applicant is a non-dominant reseller of interexchange telecommunications services. Applicant requests to be regulated by the Commission in the same relaxed fashion extended to other similarly situated resellers.

Initial Proposed Tariff

18 Applicant proposes to offer service pursuant to the rules, regulations, rates and other terms and conditions included in Applicant's initial proposed tariff, which is attached hereto as Exhibit E. On December 21, 2001, the Public Utilities Commission (Commission), in accordance with SDCL 49-31-3 and ARSD 20:10:24:02, received an application for a certificate of authority from Weston Telecommunications, LLC (Weston).

Weston proposes to offer a full range of 1+ interexchange telecommunications services on a resale basis. A proposed tariff was filed by Weston. The Commission has classified long distance service as fully competitive.

On December 27, 2001, the Commission electronically transmitted notice of the filing and the intervention deadline of January 11, 2002, to interested individuals and entities. No petitions to intervene or comments were filed and at its January 24, 2002, meeting, the Commission considered Weston's request for a certificate of authority. Commission Staff recommended granting a certificate of authority, subject to the condition that Weston not offer a prepaid calling card or require deposits or advance payments without prior approval of the Commission. Commission Staff further recommended a waiver of ARSD 20:10:24:02(8).

The Commission finds that it has jurisdiction over this matter pursuant to SDCL Chapter 49-31, specifically 49-31-3 and ARSD 20:10:24:02 and 20:10:24:03. The Commission finds that Weston has met the legal requirements established for the granting of a certificate of authority. Weston has, in accordance with SDCL 49-31-3, demonstrated sufficient technical, financial and managerial capabilities to offer telecommunications services in South Dakota. Further, the Commission finds that there is good cause to waive ARSD 20:10:24:02(8). The Commission approves Weston's application for a certificate of authority, subject to the condition that Weston not offer a prepaid calling card or require deposits or advance payments without prior approval of the Commission. As the Commission's final decision in this matter, it is therefore

ORDERED, that Weston's application for a certificate of authority is hereby granted, effective February 21, 2002, subject to the condition that Weston not offer a prepaid calling card or require deposits or advance payments without prior approval of the Commission. It is
