INFORMATION REQUEST

Docket No. TC12-084

Information Requested From:	CenturyLink QC
Information Requested By:	Brian Rounds
Date Requested:	08/24/2012
Date Response Due:	09/04/2012

---

According to the USAC Website (<http://www.usac.org/hc/tools/disbursements/>), High Cost Model and Interstate Access Support disbursements to the Company in 2011 were \$1,001,840 and \$17,895, respectively. The data provided in response to DR 1-4 does not match. Please explain.

**Response:**

The difference between USAC and the bookings previously provided as DR 1-4 is a matter of timing. For example, January USAC amounts shown are not reported in our bookings until the following month because CenturyLink does not receive the statement from NECA until then. The result is that all data is off by one month throughout the year.
